

# **12th ANNUAL NORTHEAST OHIO REGIONAL DAIRY CONFERENCE**

**“ The 5 C’s of Calf Health ”**

**Speaker - Dr. Sheila McGuirk**

**March 9, 2011**

**Buckeye Event Center  
Dalton, Ohio**

***Presented by the Dairy Veterinarians of the  
Killbuck Valley Veterinary Medical Association***

## **The Killbuck Valley Veterinary Medical Association**

*Secretary: Carlton Schlatter, D.V.M.*

P.O. Box 243

West Salem, OH 44287

419-853-4835 • Fax: 419-853-3049

The Killbuck Valley Veterinary Medical Association is an association of veterinarians in private practice, teaching, research, and industry in the geographic area surrounding the path of Killbuck Creek. The association is affiliated with the Ohio Veterinary Medical Association at the state level, and includes veterinarians primarily in OVMA district 8; we also include some veterinarians from district 7 to the north and district 4 to the west.

The purposes of the Killbuck Valley VMA are to provide professional continuing education to our membership, provide a conduit for the membership to communicate with the OVMA, and provide public service as needed to our geographic area and local communities as our professional expertise allows.

Our annual dairy producer meeting is made possible with the generous support of local businesses and is a public service of our group, recognizing the importance of the dairy industry in our local geographic area as well as the state of Ohio in general. By our continued support of this type of educational meeting for Ohio dairy industry personnel, we of the KVVMA are striving to maintain and expand this important industry, insure the continued production of dairy products of the highest quality, and improve and protect the well-being of the dairy cow herself.

We welcome you to our 2011 meeting. We hope you find the meeting educational and stimulating.

**12th ANNUAL NORTHEAST OHIO REGIONAL DAIRY CONFERENCE**

**March 9, 2011**

**Buckeye Event Center, Dalton, Ohio**

**“ The 5 C’s of Calf Health ”**

**SCHEDULE**

3:15 - 3:30 p.m.	Questions from Producers
3:30 p.m.	Adjourn

## **SPEAKERS**

### **Dr. Sheila McGuirk**

Dr. McGuirk is a Professor of Large Animal Internal Medicine and Food Animal Production Medicine at the University of Wisconsin - Madison. She received her DVM in 1977 from the University of Georgia, her MS in 1981 and her PhD in 1985 from The Ohio State University. She is a Diplomat from the American College of Veterinary Internal Medicine.

Her research is focused on the development of tools and protocols that will reduce morbidity and mortality rates on dairy farms, as well as strategies that result in early, accurate disease detection and effective treatment.

Dr. McGuirk's responsibilities are cardiac diseases of horses and cattle; GI and metabolic disease of cattle; General large animal internal medicine; Senior Rotation in Ambulatory Service Course Coordinator.

Her clinical and teaching interests are focused on the integration of individual animal diagnostic, therapeutic and preventative strategies into herd-based problem diagnosis and management.

### **Dr. Jeff LeJeune**

Dr. LeJeune is an associate professor in the Food Animal Health Research Program at The Ohio State University's Ohio Agricultural Research and Development Center.

He specializes in veterinary epidemiology and bacteriology as well as studies of antibiotic resistance related to agriculture. His expertise is in food security and safety, which has led him to be selected to the Ohio Livestock Care Standards Board.

*We gratefully acknowledge the support of our sponsors,  
without whom this meeting would not be possible.*

Please take time to visit with those sponsors  
who are present today,  
and thank those who are not present  
when you encounter them.

The veterinarians of the Killbuck Valley Veterinary Medical Association would like  
thank all our sponsors for their continued support of this educational  
effort for the dairy industry. A strong dairy industry is a tremendous asset  
for all of us in northeastern Ohio.

**A complete listing of today's sponsors included in this book are  
as follows:**

**Gold Sponsors**

American Dairy Association  
COBA Select Sires

**Finally, a dry cow treatment that won't leave you up a creek.  
NEW SPECTRAMAST DC**

With new SPECTRAMAST® DC (*ceftiofur hydrochloride*) Sterile Suspension, there is finally a dry cow therapy that offers you options instead of restrictions. Options that can give your dry cow program a flexibility and effectiveness it never had before.

- **Attacks More Major Pathogens** to provide proven efficacy against *Staphylococcus aureus*, *Streptococcus dysgalactiae* and *Streptococcus uberis*.
- The **Shortest Meat Withdrawal** allowing you to maximize your management options.
- **Zero Milk Discard\*** so you can get them back in the milking string faster.

\*Inappropriate dosage or treatment intervals with SPECTRAMAST DC and/or failure to complete a minimum dry cow period (30 days) may result in violative milk residues. As with all drugs, SPECTRAMAST DC should not be used in animals found to be hypersensitive to the product.

**Dry off without the trade off.™**

## CONTROL WITHOUT COMPLICATION.<sup>1,2</sup>

She's just one of many that look to you to make good decisions. In a business that gets more complex every day, there's a vaccine that can simplify life for you and your herd. A highly effective choice that's safe to use anytime to protect against reproductive and respiratory diseases. A combination that has demonstrated enhanced fetal protection against IBR abortion 8 months post-vaccination.<sup>1,2</sup> **Vira Shield® 6**. It's the vaccine that can make life a little easier for you – and for her.

**VIRA SHIELD™**

**Vira Shield® 6**

- HIGHLY EFFECTIVE
- LONG-LASTING
- UNCOMPLICATED

**NOVARTIS**  
ANIMAL HEALTH

*Like all agricultural groups in Ohio, the dairy industry is challenged by consumer misconceptions and is working to educate consumers about modern dairy farming.*

**Visit [www.OhioDairyFarmers.com](http://www.OhioDairyFarmers.com)**

- Meet real Ohio dairy farmers and hear their stories
- Learn how they care for their cows, their land and the foods they produce
- Discover resources to help educate your community about Ohio dairy farming
- Find fun and educational tools to share with your local schools

**"Meet Ohio Dairy Farmers"** is a nine minute video of real Ohio dairy farmers discussing the steps they take to ensure responsible animal care, environmental stewardship, and safe, affordable food.

**"Down on the Farm"** is four minutes of fun and facts that teaches students about where milk and dairy foods come from, how dairy farmers care for their cows and their land, and how milk gets from the dairy farm to kitchen tables and school cafeterias.

**call 1-800-292-MILK or e-mail [info@drink-milk.com](mailto:info@drink-milk.com) for more information**

**RENAISSANCE  
NUTRITION**

## **HOW ARE YOUR COWS PERFORMING? ARE THEY HEALTHY & PRODUCTIVE?**

At Renaissance, you and your cows are important to us!

Our goal is to help your cows produce to their optimum level, while maintaining good health and body condition.

Success with your cows comes from many things - a good ration program; excellent forages; a proactive approach to cow comfort issues and consistent reproduction.

With Renaissance, you get another 'set of eyes' working with you, helping to meet your goals and making your operation more profitable.

We can help you with:

- Expert Nutritional Consultation
- Agronomy Support & Quality Seed Products
- Advanced Forage Analysis Procedures
- Calf/Heifer/Cow Nutrition & Management
- High Quality Products
- Personalized Care & Service
- Dairy Records Analysis
- Up-to-Date Farm Management Advice
- Opportunity for Improving Performance & Profitability

**ACHIEVE™**  
with Cryptex™

**NEW**

### Supporting natural immunity improves calf health

That's why Achieve is formulated with

- targeted egg-yolk proteins to help combat common pathogens that cause scours and malnutrition;
- lactic-acid-producing bacteria, glutamine and inulin to support intestinal health and foster digestive balance; and
- Cryptex, which creates a hostile environment for pathogens like *Cryptosporidium* and gives Achieve its characteristic black color.

Ask for Achieve in convenient paste (dial-a-dose tubes) or powder (five- to 50-calf packs) formulations.

## Don't Worry About Losing Her to Scours Peace of Mind Comes with Guardian<sup>®</sup> Vaccine

See your veterinarian or animal health supplier for more information.

**Finally, there's a scours vaccine you can count on!** Guardian vaccine is a trustworthy and convenient tool for limiting neonatal calf losses. In fact, in a recent nationwide survey of Guardian vaccine users, 98.4% of 132 respondents (veterinarians and producers) said they would use Guardian vaccine again because of its broad spectrum of protection and flexible dosing schedule.

Guardian vaccine has everything you want in scours protection, from reliability to convenience. Use Guardian vaccine once, and it'll be your scours vaccine for life, for peace of mind.

# MAXIMUM MILK PRODUCTION.

Mycogen® brand Silage-Specific™ BMR corn hybrids are bred for the highest digestibility possible to maximize milk production unlike anything else. In fact, our BMR corn hybrids produce more milk per ton than any other silage corn on the market — as much as 4.8 pounds more milk per cow per day.

And these award-winning hybrids can maximize profits, too. Using the latest in agronomic advancements and featuring a lower lignin content for the highest fiber digestibility and higher dry matter intake, these hybrids deliver more milk and a return on investment as high as 10:1.

Contact Karl McCullough at (614) 989-0976 for more information.

## Tech Mix products that help to rehydrate and smooth the transition from calving to production

**BLUELITE® C** ... A palatable, flavored electrolyte acidified energy rehydration formula for young non-ruminating calves designed to help combat dehydration. Easy to use, BLUELITE® C can be mixed with water, milk replacer or whole milk. Cuts losses of dehydration by 4-10% in field trials with stress and disease.

- **Fresh Cow YMCP Plus**  
Maximize milk production & reduce metabolic problems.
- **Bovine BlueLite®**  
Rehydration for any age.
- **BlueLite® C**  
Rehydration for young, non-ruminating calves.

**Fresh Cow YMCP Plus**...Is specially designed to help cows get back into condition for lactation, reduce the incidence of metabolic problems, and maximize milk production.

**Bovine BlueLite** ... Specially designed for shrink and dehydration in cattle. The ideal rehydration formula for ruminants of any age. . . beef, dairy and sheep.

## TechMix, Inc.

Nutrition, methods and research for better animal health

## A Healthy Immune System Starts with Good Nutrition.

A cow's natural immune system needs to be healthy to fight the stresses of:

- Production and reproduction
- Molds and mycotoxins in feed
- Pathogens in the environment

Maintaining a healthy immune system can:

- Reduce somatic cell count
- Reduce incidences of mastitis
- Reduce incidences of metritis
- Reduce death loss and culls

Make sure your herd's nutrition is optimal by feeding two ounces per cow per day of OmniGen-AF nutritional supplement.

# Revive Extra

REVIVE EXTRA is a patent pending product developed over a 20 year period through on farm testing and combined efforts of a practicing dairy nutritionist and one of the top microbiologists in the field. It is a unique combination of various strains of beneficial bacteria, enzymes, and a specific type of concentrated yeast culture. It was designed to establish and rapidly expand a superior rumen population heavily weighted toward fiber digestion and to produce high levels of B-vitamins mainly vitamin B-12. REVIVE EXTRA was not designed as a toxin binder but has been proven to destroy mycotoxins.

## Advantages to feeding REVIVE EXTRA

- \* Healthier rumen environment
- \* Improved immune system
- \* Improved reproduction
- \* Stimulates dry matter intake
- \* Improved feed utilization
- \* Aids in blocking out salmonella & e-coli
- \* Improved herd health
- \* Better heats
- \* Proven by on farm testing to destroy mycotoxins
- \* Lowers cull rate
